

AI

1. (amended) A pin kit with a plurality of pins for an apparatus for forming a plurality of V-shaped grooves at a desired interval on a light guide panel, the pin kit comprising:
a buffer plate having an elastic member fixed at a lower side of the buffer plate;
a guide plate having insertion holes for receiving a plurality of pins, the insertion holes being positioned to permit contact between one of the pins and the elastic member; and
wherein the plurality of pins are inserted into the insertion holes on the guide plate for forming V-shaped grooves in the light guide panel.

AD

6. (amended) A pin kit as claimed in claim 1, further comprising a fixation member having an insertion groove at the bottom thereof, wherein the fixation member is affixed to the lift piece, and wherein the buffer plate and the guide plate are affixed to the insertion groove.

IN THE DRAWINGS:

A Request to Amend Drawings is filed concurrently herewith to amend Fig. 3 as requested in item 2 of the Office Action. The amendment replaces incorrect reference character "21" with correct reference character "22."
